Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-19 and 45-50, drawn to a system and method for transmitting information to and from a radio receiver, classified in class 455, subclass 418.
 - II. Claims 20-44, drawn to a system and method for address decryption, classified in class 340, subclass 902.
2. The inventions are distinct, each from the other because of the following reasons: Inventions I and II are disclosed as different combinations which are not connected in design, operation or effect. These combinations are independent if it can be shown that (1) they are not disclosed as capable of use together, (2) they have different modes of operation, (3) they have different functions, or (4) they have different effects. (MPEP 806.04, MPEP 808.01).

In the instant case, invention I is directed to a method comprises the steps of receiving the control call and execute the specified control operation. The invention II is directed to a method comprises the steps of encrypting and decrypting a messages using encryption key.

Art Unit: 2154

3. These inventions are distinct for the reasons given above, and the search required for each Group is different and not co-extensive for examination purpose. For example, the searches for the four inventions would not be co-extensive because these groups would require different searches on PTO's classification class and subclass as following:

(a) the Group I search (claims 1-19 and 45-50) would require use of search

Class 455, subclass 418.

(b) the Group II search (claims 20-44) would require use of search

Class 340, subclass 902.

4. Applicant is advised that the response to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 C.F.R. § 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently-filed petition under 37 C.F.R. § 1.48(b) and by the fee required under 37 C.F.R. § 1.17(h).

5. Applicant is reminded that the required for response to this requirement is 30 days, not one month.
